OBJECTIVE

To enhance my professional skills, capabilities and knowledge in an organization which recognizes the value of hard work and trusts me with responsibilities and challenges.

EXPERIENCE

Vodafone Intelligent Solutions (VOIS), Pune **SENIOR EXECUTIVE**

As a Senior Executive at Vodafone Intelligent Solutions (VOIS), I have been involved in various software testing and development projects, ensuring the delivery of high-quality solutions within specified timeframes and budgets. Some of my key responsibilities and accomplishments include:

- Delivering high-quality software testing and development solutions within specified timeframes and budgets.
- Demonstrating strong adaptability to various work environments and efficiently collaborating with diverse stakeholders and team members.
- Providing strategic direction and guidance to both testing and development teams.
- Continuously pursuing advanced certifications, attending industry workshops, and engaging in self-study to enhance technical knowledge and practical skills.
- Striving to maintain high standards of quality in testing and development while refining processes to enhance overall efficiency and effectiveness.
- Developing the ability to adapt to diverse work environments and enhance collaboration with stakeholders and team members.
- Committing to ongoing education in both software testing and development to establish measurable goals and demonstrate improvements in both domains.
- Focusing on developing leadership skills to guide and motivate cross-functional teams comprising both testers and developers.
